

Application of ICT (information and communication technologies)
in mathematical education of visually disabled students

School data:

.....
.....

1. Is a computer network and the Internet used in maths classes? Yes No
2. What ICTs are on the school's equipment to support the math teaching of students with visual disabilities:
 - a. Equipment: laptops ; tablets ; smartphones ; interactive whiteboard ; interactive monitor ;
other (what?)
 - b. Software: math formula editors ; math graphics editors ; for math graphics printing on swell paper ; other (what?)
3. Students with visual disabilities in maths classes use:
 - a. laptops What are they used for?.....
 - b. tablets What are they used for?.....
 - c. smartphones What are they used for?.....
 - d. students do not use computer equipment in maths lessons
4. Students who see mathematics lessons use:
 - a. laptops What are they used for?.....
 - b. tablets What are they used for?.....
 - c. smartphones What are they used for?.....
 - d. students do not use computer equipment in maths lessons
5. Teachers in maths classes use:
 - a. laptops What are they used for?.....
 - b. tablets What are they used for?.....
 - c. smartphones What are they used for?.....
 - d. teachers do not use computer equipment in maths lessons
6. Math teachers use ICT:
 - a. to edit math tasks? Which ICT tool?
 - b. to edit math graphics? Which ICT tool?
 - c. for sending tasks and other mathematical content to the student? Which ICT tool?
.....
 - d. for edit & manage mathematical tests? Which ICT tool?
.....
 - e. for columnar layout arithmetic calculations ? Which ICT tool?
 - f. to other operations ? please describe these operations and tools used
.....
